

Interim report for Sample Student

Here you can add a more generic comment on this student. It can be several lines long.

Hopefully you will have a lot to say. Perhaps this process will be easy enough that we can do this every year. The comment we are using here is a generic comment for parents to read so that they understand the reporting system we are using. Our school is an IB World School, which means that our structure may differ from your own school.

English B SL	5
French B HL	4
History HL	5
Psychology SL	6
Biology HL	5
Mathematical Studies SL	5

Comment

This is where we would include a more personalized comment for each student. One has to be careful that this does not end up being too long, or when you download the file as a PDF, it will run into more than one page. Fortunately Google supports page breaks, see Insert => Page break.
